## FEATURES

**The NGAUS Legislative Agenda and You 20**  
Still our membership asks what has NGAUS done for them lately? How can I get a resolution introduced at the General Conference? Why does the Association have all those task forces? What does the Executive Council do? All these questions are answered and more.

**The Never-Ending Question Continues 42**  
MG Donald Edwards, the president of the Adjutants General Association of the United States and the adjutant general of Vermont, offers facts about the National Guard for the record and his recommendations as to why force structure and force mix should be a more balanced picture than what is proposed in base force.

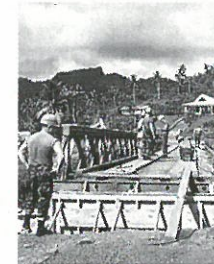

**What Did the Rand Study Say After All? 48**  
COL Reid K. Beverage writes a descriptive article on the congressionally mandated Rand study to assist it in determining how force structure and force mix should be configured for the coming century. Many in the Guard community say it still leaves open-ended questions.

**Defense Leaders Say: Cuts are Inevitable 60**  
During the Adjutants General Association of the United States (AGAUS) midwinter conference in Washington, D.C., national military leaders and congressmen talked of inevitable Defense cuts. Some will ultimately face the National Guard community.

**A Museum in Honor Of... 68**  
The National Guard Museum will tell the National Guard's unique history to thousands of visitors each year in our Nation's capitol.
