

NORTHROP GRUMMAN

DEFINING THE FUTURE™

It substantially shortens the moments
between "see" and "destroy."

LITENING G4. Today, threats emerge quickly that are more cunning and more lethal. LITENING accelerates the ability to respond with our new G4 sensor pod featuring advanced FLIR, CCD/TV, and laser imaging sensors. Technology that will locate, identify, classify, and alert the entire battle network. And destroy an enemy before they even know they've been seen. Exactly the qualities that keep LITENING leading the pack.
