# NATIONAL GUARD

SEPTEMBER 1992 Volume XLVI, Number 9

## DEPARTMENTS

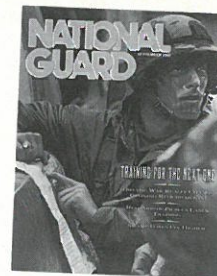

**The State of the Guard 20**  
The National Guard's strongest supporter on Capitol Hill, Representative G.V. (Sonny) Montgomery, reviews how Congress has responded to National Guard and Reserve concerns since the Persian Gulf War. Veterans benefits and job protection are among the items covered.

**Dixie Looks Back, To Move Forward 36**  
The 155th Armored Brigade (Dixie Thunder), Mississippi Army National Guard, mobilized for the Persian Gulf War but never deployed, broke every record imaginable during postmobilization training. Today, its training continues to set the standard.

**Staying in the Fast Lanes of Training 58**  
Wisconsin's 32d Infantry Brigade (Sep) became the first National Guard unit in the country last summer to plunge into the new "lanes training" concept. This year, the brigade redoubled its efforts toward this type of training.

**Delaware's Air Guard Goes to the Field 64**  
For members of the 166th Tactical Airlift Command (TAC) Clinic, Delaware Air National Guard, it was the first time they had ever gone to the field to train to interface with an active Army medical battalion. It was an eye-opening and gratifying experience for them and the active Army.

**Pumping Gas in the Air 78**  
Members of the Washington Air National Guard's 141st Air Refueling Wing had one thing confirmed during DESERT SHIELD/STORM: They had been training right. But with a war behind them, members are taking training even more seriously.
