SAVING THE REPUBLIC
Memoirs of Civil and Military Life by Nelson A. Miles, Lieutenant General, U. S. A. Both an addition to history and a colorful, stirring story of a man's struggles and responsibilities. Gives a concise but complete description of a method of acquiring a perfect knowledge of any text-book or other book used in pursuing a special course of study or reading. Some years ago the discoverer of the system, in preparing for a competitive examination, found it impossible to make satisfactory progress by ordinary methods of study. He was greatly troubled by mind-wandering and defective memory.
